pre-post deployment evalform.doc

Bill Hurlbut completed his 8hr annual HAZWOPER refresher on 5/28/15. He has met all his H&S training requirements; however, he will have to arrange a pre-screening exam with FOH prior to his deployment. Please have him complete the items highlighted in yellow on the attached form and bring to Nurse Mike. There is no bloodwork required for the pre-screening exam! So as soon as he is finished and given clearance by Nurse Mike, he is able to deploy.

Good morning Kendra and Michael. We have four people that have volunteered to assist with the Gold King spill. They have reported to me that they are current on their training under our JHP. Below are records maintained in our branch on Bill Hurlbut. Please let me know if there are any training deficiencies indicated by your records on these four individuals. Thanks.

Bill,

Before I can send on your name for potential GKM deployment. I need to update your files. Currently, I show that you are out of date with your Hazwoper. Could you please send me your certificate of completion for this refresher course.

Thanks!

Nichole, the following have expressed interest regarding potential Gold King Mine deployment:

Miguel Moreno – after August 11th

Mike Overbay – needs to be back by August 28th

Bill Hurlbut – can deploy after August 18th

Lisa Pham – is available anytime, except September 4-7
